Writing Wizard

From the pages of my diary....

If you have talent
Keep working on it,
someone something ,
Keep experimenting with it,
Do things that fulfills your attitude,
But don't do the things that make others rude.
Nothing will work unless you work hard,
But when you work on it, it will be accepted by
God.

Love yourself and be grateful to all.,
Because you are the one, who is unique.

Laugh at your own mistakes,
But don't become the reason of laughs',
Feel the enthusiasm in your own vision
But don't exploit others passion
Believe in your paths, deeds, vision
But don't let others prohibit your mission.

Try to become as good as you.
Because the hidden diamond is in you.
God is waiting for you to accept you as the best.
But don't forget God when you reach the crest.

One of the many things my mom taught me that keeps me alive.

When I was seven, I knew that love was somewhere near me, it felt like I was a little bit older, I have been told that it was about two people who loved each other, and when I looked at the face of two lovers, it seemed like they ignored the truth that this world was not just about them.

But my mother taught me that I can experience love in various ways. She taught me that love can also be expressed as forgiveness, she told me that it could be given because I already have the love, and that love will be replenished if I decide to share it with others. My mother taught me that it will be such an extraordinary story if it ends with forgiveness. I have been taught to love my enemies, even though it will just hurt me more. But this life lesson told me to have a look at the flowers, they seem like a lone fighter when nobody ever tells them how they will survive, there might be storms and a long dry season, they could have thousands of scars too, "but look at them," she told me. "They still forgive the world and still manage to give us their best picture." above all else, I believe that everyone will appreciate every flower from how well they have grown.

THE TWO LOCKED YEARS OF LEARNING

"There will be complete Lockdown from tonight."

When we heard this for the first time, we somewhat felt relaxed thinking that we all will get to spend a lot of time with our family members. But we never ever thought of the other side and various other circumstances of this lockdown. We never thought that this 21 day span at home will stretch to two years and from

Covid Virus it would become a Covid era. The most adverse effect was on our education. We're introduced to the term, "Online Classes". The beginning was fun, getting new smartphones, internet connection; on the other hand, it was quite difficult for our mates who weren't economically well and for those who lived in rural areas. It was all fun for saying, that we've just passes without studying or that we've just passes our time. Believe me, we along with our teachers, and parents have seen and faced what others cannot. Our parents always made the efforts to create a non-disturbing environment so that we could pursue our online classes. Our teachers stood for hours, adjusted cameras

for long and kept on teaching rigorously.

We, the students on the other hand were the ones who faces new things, distractions and stress throughout. Sitting in front of the phone for hours effected our eyesight and brain. The concept of online exams, followed by offline exams, followed by online exams and then again online was one of the major factors for our academic depletion. Studying the objective part throughout the year and then studying it subjectively, caused a mismatch and lack of energy in us. Moreover the problems regarding online era extended till infinity. Poor connection, lack of data, lack of devices, arrival of responsibilities. Keeping it natural even after losing someone from this world, keeping the never

say die attitude high, failing and bouncing back from the worst situation is what

this era has taught us. Losing the 2 important years for exploring and learning we've only been handling the situation. The value of income, people, time and value for everyone is what we've learnt. Don't call us Online Students, Easily passed, pushed students, but more than these titles, we all deserve to be called

as "Fighters".

Stainless Night

Spiralling from deep within the cave.
Beckoned to roar by the bold and the brave.

Titanium hide your ebony black.
Charging forward the chariot of the bat.

Glossed over by gibbous moon's guilders.
As mysterious as the answer of the Riddler.

Art deco's prized octane fury.
Hunting in the Gothic jungle for the guilty.

A dark comet's red tail ignites.
An omen of Stainless Night.

Intruding Life partterns

Illogical life patterns
Every experience and relationships
Pleasure In pathless woods
Is what makes us solitude.

Transformation is a process
With Tons of ups and downs
Extravagant is our behaviour
When overwhelming atrocities
Make us renowned.

Fauji

I am an NDA Aspirant and I equally respect all professions, services, jobs and all duties. But let me be honest. I'm slightly partial towards Fauji and Medico. And I've devoted few of my beautiful write-ups for nurses. And today I'm going to tell you when does a man or a woman becomes a Fauji.

When your DRESS becomes your UNIFORM
And your PEN becomes your RIFLE
When your TICKETS become your WARRANT
And your BADGES become your RIBBONS
When your POCKET contains your NAMEPLATE above it
And your RESIDENCE becomes your QUARTER.
When your CLASS becomes your RANK.
And your SHOES become your BOOTS
When your TEACHER becomes your INSTRUCTOR
And your COLLEGE becomes your USTAD
When your SIR becomes SAHAB
And your MEETING becomes your DARBAR
When your HOTEL becomes your MESS
And your HOSTEL becomes your BARRACK
When your PLAYGROUND becomes your PARADE GROUND
And the MARCH PASS becomes your PASSING OUT PARADE
When your GOOD MORNING becomes RAM RAM
And your WISHES become JAI HIND
When your LUGGAGE becomes your AMUNITION
And your LOVE becomes your NATION
When your BESTY become your BUDDY
And your HOME WORK becomes your NIGHT DUTY
When your SHIFTING becomes your POSTING
And your OPPORTUNITY becomes your OPERATION
When your ATTENDANCE becomes your ROLL CALL
And your PRIZE becomes your GALLANTARY AWARD
And your DISCUSSIONS become FALL IN
When your ROAMING becomes PATROLLING
And BACKBONE is your SPOUSE
When your ROLL NUMBER becomes your REGIMENTAL NUMBER
And your SECTION becomes your BATTALION
When your WAR becomes your EXAM
And to your DEATH, you do not give a DAMN
When your SHROUD is TRICOLOR
When your family holds TEARS on your VALOUR
THEN YOU BECOME A SOLDIER

COVID - 19

Covid hospitals are set up
overnight
Doctors, police and workers
Are working for us day and night,
Let's do not waste the time,
Let's study with our teachers
online!

Stay away from each other,
But don't leave each other!
Our fingers are all crossed.
As we hope for cure.

Yes, there is no sound of vehicles
on road!
But, we can hear the
Voice of birds and crow.

Let's join our hand and close our
eyes,
Pray to God for each of our good
and healthy life!

Friends

Friends we are,
Forever we'll be,
Wherever I shall be,
You all will be beside me.

I hope we stay friends,
Till the end of time,
And whatever time it is,
Our friendship will shine.

So, to everyone of my friends,
You mean the world to me.
Friends we are, forever we'll be.
Wherever I shall be, you will be beside me.

Oh ! Mother

No one can take your place,
You are everything for me.
Your hugs are warm,
And they make me happy.
You nurse me whenever I am sick,
You feed me when I am hungry,
You help me in studies,
You are my guide,
Whenever I go wrong you show me the
right path and flash upon me the light.

My Garden

This is my garden,
I will plant it with care,

Here are the seeds.
I will plant them there,

The sun will shine,
The rain will fall,

The seeds will sprout,
And grow up tall.

Parents

Parents are our guide
They are always by our side,
They teach us what is right
And want our future to be bright.
Parents teach us moral values
They deserve our love and salute,
They are the greatest gift
Accept it with a kiss.
They are gentle as dove
We should always give them love,
They protect us from sun and rain
Respecting them should be our aim,
They are our greatest friends
In front of them we should always
bend.

My Dear Teacher

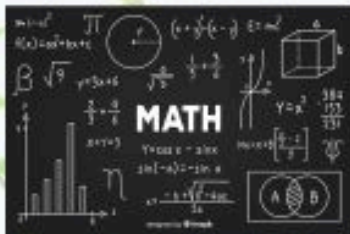

In your class, there is much fun
But, I always play and run.
But ,now, I know what to do in any situation,
But, still I have a question.
Do anything burns,
That always roll and turns?
The things you had taught,
All kind of knowledge I got.
But, now, there are classes online
I am missing the classes offline.
I am thankful to you for what you have done,
You are the best person in the school and the only one
To be cherished for days to come.

Math..

Maths! Maths! Maths!
What is this Maths?
This is a game
With a question frame,
The number are players,
And solutions are stairs,
The formula is key
Which is a treasure for me.
Yes this is Maths with its
greatness
Testing our smartness.

I am a little scientist....

Once upon a time in the newspaper,
I saw a special thing for me,
It was very amazing to see.
The ISRO sign!
This introduced me, to my dream line.
I am little and very creative
And behind it, I also have a motive.
And that is, I want to be a scientist,
But sometimes, when I write so many things about science,
Sometimes, I get pain on my wrist.
One day when I saw a cool experiment,
I quickly embark,
But it didn't work
But, when it worked, I was shocked!
Sometimes, I have two curious questions....
How does a missile launch? And how does it crash?
Now, I know about all things
So, now I am thinking, how to make artificial wings.
Yeah! One day I will be a real scientist
And finish my dream list.
Goodbye! And take greetings from me
And think, how precious are we....

My school

My school uniform,
In winter keeps me warm.
Many books are in the library,
Some we read and some we carry.
Blessed with a playground,
Greeneries all around.
We learn in the school,
Discipline and rules and to shine in the crowd.
My school, my school
Beautiful and so cool.

साहित्य सागर

मंज़िल पाते हैं।

जो बीच राह में बैठ गए,
वे बैठे ही रह जाते हैं।
जो लगातार चलते रहते हैं,
वे निश्चय ही मंज़िल पाते हैं।
माना यह दूर किनारा है,
फिर सागर ने ललकारा है
तब बैठे रहना हाथ बाँध,
वीरों को नहीं गँवारा है।
वे कायर हैं जो हार गए,
नर -नाहर ने बाज़ी मार गए।
इन तूफानों से टकराकर,
हिम्मत वाले उस पार गए।
माना गरम अंधियारा है,
पर हमने कब स्वीकारा है?
हम दीपक हैं, जलते रहते,
हम से पग पग उजियारा है।

तू हारा नहीं है ।

कुछ हासिल नहीं हुआ ? तो क्या!
लेकिन तू हारा नहीं है।

बेशक अकेला खड़ा है।
लेकिन तो कोई बेचारा नहीं है।

लकीरों का मोहताज नहीं तू भूल मत!
तू ढूँढता किसी का सहारा नहीं है।

हाँ! दो रोटि कम खाता है।
पर किसी के कर्ज़ का मारा नहीं है।

सब थक कर बैठ गए हैं।
लेकिन अब तक तू हारा नहीं है।

कोविड-19 की अवधि में सकारात्मक विचार

सारे मुल्कों को नाज़ था
अपने अपने परमाणु बम पर,
कायनात बेबस हो गई,
एक छोटे से कीटाणु पर,
वही एक उम्मीद ही थी हमारी
जो इस मंजर से भी बाहर आएंगे।
यह कहते थे हमारे मोदी जी
हम जीत जाएंगे
कोरोना काल से लड़के आएंगे।
जीत कर बाहर, आएंगे जीतकर बाहर आएंगे।

एक बार फिर से स्कूल चलें हम

एक बार फिर से स्कूल चलें हम
कितनी अच्छी थी जिंदगी,
कोरना से पहले ।
हम बड़े मजे से घूमते थे
पार्क और मेले ।
रोज सुबह स्कूल जाना और
दोस्तों से मिलना ।

कितना अच्छा लगता था
वहां की कक्षा में बैठकर पढ़ना
कोरोनाकाल में हमने शिक्षकों को बस
मोबाइल में ही देखा था ।
उन्होंने हमें बहुत अच्छे से पढ़ाई से जुड़ा था ।
स्कूल न जा पाने का हमें एहसास भी न होने दिया ।

अब फिर से स्कूल खुल गए हैं!
समय है मोबाइल छोड़कर वापस कक्षा में जाने का,
शिक्षकों से मिलकर उन्हें धन्यवाद कहने का ।
अपने दोस्तों के साथ खेलने और छोटी-छोटी बातों पर लड़ने का,
ईश्वर करें यही समय हमेशा बना रहे कोरोना हमारे जीवन से हमेशा के लिए चला जाए,
हमारा प्यारा सा स्कूल फिर से कभी बंद न हो और,
हम अपने शिक्षकों को ऐसे ही हमेशा मिलते रहे ।
