The entire DPS BALCO family extends heartiest CONGRATULATIONS to all the students for their brilliant performance in the SSE, 2025-26 (CLASS-XII) and wish them all the best in their future endeavours.

Note for parents:

For the last three academic years, CBSE results have been getting tougher & scoring above 90% is becoming difficult. This is because now the CBSE is testing COMPETENCY rather than memory. So, if a student had to score above 90% marks, he/she need to focus on basic concepts, stepwise solution, and application of the key concept.

Please help your child to adapt to the new pattern - we are also gradually introducing this from primary classes onwards.
